Width:	Folded 28 cm (11 in)
Depth:	Folded 19 cm (7,5 in)
Suspension line:	100 cm (39 in)
Capacity:	Mini Standard 4 kg (9 lbs) Mini Strong 4–6 kg (9–13 lbs)
Maximum waist:	140 cm (55 in)

Every Easyrig mini has a serial number at the foldable point of the support bar.

Camera bag features two external pockets.

The ergonomically designed Easyrig Mini is the comfortable way to support your camera and eliminates the fatigue associated with long periods of hand held operation, it is the perfect partner for compact video cameras, video DSLRs and light-weight film cameras.

The Easyrig Mini is supplied in a protective transport bag which has been designed to accommodate The Easyrig Mini as well as safely store your camera. The Easyrig Mini transport bag can be quickly and effortlessly transformed into a back pack by simply unfolding the shoulder straps that are securely stored in the bags side pockets. It will also allow you to carry your camera together with the rig.
